§ 371 (c)(1),

(2) Date: **Oct. 16, 2015**

[Object] To provide a contact lens and storage medium capable of controlling an image pickup unit provided in the contact lens.

[Solution] Provided is a contact lens including: a lens unit configured to be worn on an eyeball; an image pickup unit configured to capture an image of a subject, the image pickup unit being provided in the lens unit; and an image pickup control unit configured to control the image pickup unit.
